Event 202731

Divisional Employee ▲	Notification Date	Event Date	Description	Priority Level	Type
YATES, PETER	11-SEP-2014	01-MAY-2014	Phone: TRC - Complainant phoned re: unsafe work conditions in relation to hazardous chemicals/welding etc as PPE is not being provided. No ventilation in painting area, exposed light bulbs, complainant concerned that fire could be started if light bulb blows. Complainant has not been provided with PPE or MSDS. Company did not have MSDS available when requested by complainant. Complainant has visited doctor several times with chemical burns and exposure concerns. Complainant has been working with chemicals for approximately 4 months at this site. No PPE has been provided - goggles, gloves, overalls etc. Complainant is visiting doctor today for blood test as he is concerned that the chemicals he is working with can be absorbed through the skin. Complainant has suffered chemical burns to his eyes and tingling in the fingers after working with these chemicals.	4	WHS
