Hi Liz

WH&S officers report that, since January 2014, there has been only one recorded surgery to date for a Youth Worker as a direct result of an assault by a Young Person (Youth Worker [redacted] incident number: 5377194). I have attached the information required in 10 emails as there is a lot. Some information is sensitive and confidential information from the WH&S files and I have also attached the DCOIS reports and related attachment.

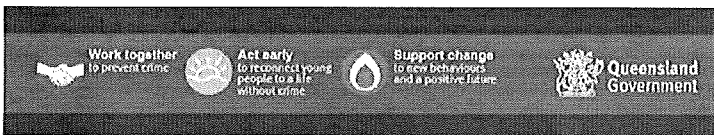

FYI – the room in which this incident occurred does not have a camera in situ hence no CCTV footage.

S73 RTI

Please call me if you need any further information,

Nat

Hi Natalie,

My understanding is that this request is in relation to assaults on staff which have required surgery. As you will see below, Dave has mentioned this is a specific request relating to staff who have required surgery as a result of an incident. We understand that at times staff are injured and are sent to hospital or to their GP for assessment, however you wouldn't need to include those in this RTI request.

1. Assaults that resulted in surgery

Documents, such as reports (or final reports), executive/ministerial briefings and attachments, internal correspondence and related photos/CCTV/body-worn camera footage in relation to assaults at correctional/youth detention facilities/prisons which resulted in surgery

Hope that is of assistance.

Cheers,

Hi Trevor and Fran

We have received two RTI requests that we need to respond to:

1. Assaults that resulted in surgery

*Documents, such as reports (or final reports), executive/ministerial briefings and attachments, internal correspondence and related photos/CCTV/body-worn camera footage in relation to assaults at correctional/youth detention facilities/prisons which resulted in surgery*

*For the period 1 January 2014 - 17 July 2017*

I am aware that staff occasionally are sent to hospital or to their GP for assessment and treatment of injuries as a result of assault – but these do not require surgery. I am only aware of one staff member that required surgery since January 2014 – this was a result of the November 2016 CYDC Code Black. Could you both please confirm this and Fran, could you please send any documentation or footage per the request

I will need to finalise this by Monday 25 July. Please call me if you require any clarification

Thanks a lot

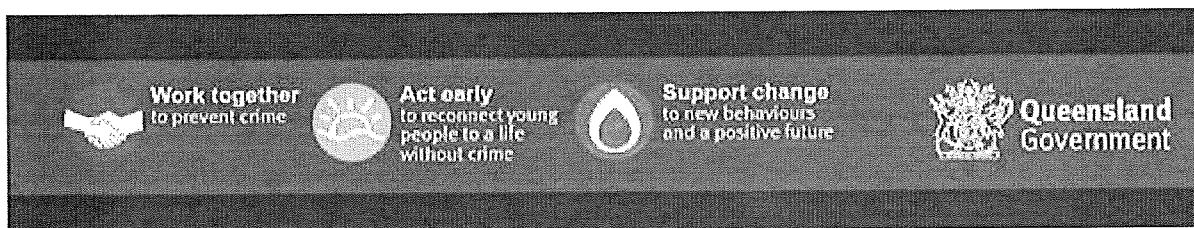

d
